Subject: RE: RCRAInfo units to be added
Attachments: USEPA units_SW.docx

Good afternoon Mike,

All of the units listed below are in RCRAInfo (Please see attachment for verification). These units are all included in our Initial Controls Baseline list because they are currently not associated/linked with any permit or closure events in EnviroStor or RCRAInfo (they need to receive an initial permit or be closed). When a permit or closure activity is completed for these units (and entered into EnviroStor), the data will be uploaded into RCRAInfo during our regular upload process. This is the reason why as you have pointed out, they don't have a "Show Details" link in RCRAInfo (there is no data available at this time).

I'm not sure why they are not showing up in the report that your HQ is pulling since we were able to verify that the units are in RCRAInfo. Can they share the criteria/report they are using in RCRAInfo so we can conduct some additional analysis?

Schumin Wong

Subject: FW: RCRAInfo units to be added

Hi Mike and Schumin,
Following is more clarification from my HQs on the units to be added to RCRAInfo.
Hope this helps.
Best regards,

Mike Zabaneh, P.E.

Subject: RE: RCRAInfo units to be added

Mike
These are the units that did not come up on a RCRAInfo test of the baseline. This may be slightly different than the previous list since my other report did not pull up some units that were actually in the system.

Facility ID/	Unit	seq#
